

# Economic and Health Justice for Women and Families in Illinois

OCTOBER 2024

In Illinois and across the country, policymakers must prioritize progressive policies that support women and families' economic security, health outcomes and overall well-being. For Black women, who make up approximately 14 percent of women in Illinois, policies that center their needs and address the systemic oppression and racism that create disparate health and economic outcomes are especially vital.<sup>1</sup> Illinois women need livable wages, supportive workplace policies such as paid family and medical leave, comprehensive health care access, and access to abortion – and they need a democracy that allows for their voices to be heard.

## Paid Leave

- About 76 percent of working people in Illinois do not have access to paid family leave. Sixty-two percent of Illinoisans are unable to access unpaid leave under the federal Family and Medical Leave Act.<sup>2</sup>
- Nationwide, nearly one third of all adults aged 55-64 — and 41 percent of older Black women and 43 percent of older Latinas — hold a physically demanding job, which may exacerbate or cause serious medical conditions that require care, particularly in older workers and disabled workers. In Illinois, that would mean 360,600 older workers, 29,300 older Black women workers and 21,000 older Latina workers.<sup>3</sup>
- If women in Illinois participated in the labor force at the same rate as women in peer countries with paid leave, there would be an estimated 124,000 additional workers in the state and \$4.4 billion more wages earned statewide.<sup>4</sup>

**84% OF BLACK MOTHERS IN ILLINOIS ARE BREADWINNERS.**

— Paid Leave Means a Stronger Illinois

## Equal Pay

- Across the nation, women overall are typically paid 75 cents for every dollar paid to men.<sup>5</sup> Illinois women who were full-time, year-round workers earned only 82 cents for every dollar men in Illinois earned in 2023.<sup>6</sup> For Black women this gap is

even larger – for every dollar that men earned in 2022 (the latest available data), Black women in Illinois earned only 61 cents.<sup>7</sup>

- Women’s wages support their households. In Illinois, 84 percent of Black mothers are key family breadwinners.<sup>8</sup>

## Child Care

- In Illinois, full-time center-based infant care costs 15.8 percent of family median income.<sup>9</sup>

## Student Loan Debt

- Women hold nearly two-thirds of Americans’ collective \$1.7 trillion of student loan debt. Black women are especially impacted by student loan debt – they hold more student debt than other demographics, with an average of \$38,800 in federal undergraduate loans a year after completing a bachelor’s degree.<sup>10</sup> Illinois has the 6th highest student debt per borrower, with a total student debt of \$63.1 billion owed across more than 1.6 million borrowers across the state.<sup>11</sup>

## Poverty

- In Illinois, 12.1 percent of women 18 and over were experiencing poverty in 2022 – for Black women, that rate increased to 22.7 percent.<sup>12</sup>

## Health Justice

- Black women in Illinois were twice as likely to die from any pregnancy-related condition and three times as likely to die from pregnancy-related medical conditions than their white counterparts from 2018-2020.<sup>13</sup>
- Just under ten percent of Black women between the ages of 19-64 in Illinois lacked health insurance coverage between 2017 and 2021.<sup>14</sup>
- Illinois is a protective state for abortion access.<sup>15</sup>
  - However, restrictions on reproductive health cost Illinois almost \$5.5 billion in total average annual economic loss<sup>16</sup>

## A Stronger Democracy

- Less than 42 percent of Illinois’s state legislators are women. Women of color broadly make up 17.5 percent of Illinois’s state legislature.<sup>17</sup>
- Illinois is ranked 9th by the Cost of Voting Index, representing a less restrictive electoral climate than other states in the country.<sup>18</sup>

## **Comprehensive policy solutions are necessary – and women and families in Illinois cannot wait.**

The following policy recommendations would support women and families' economic security, health care access, and well-being in Illinois and beyond.

- Family friendly workplace standards, including a common sense, national paid leave program
- Fair pay protections and practices
- A higher minimum wage and elimination of the tipped minimum wage
- Stronger protections for workers' rights to unionize
- Ensure access to abortions and comprehensive reproductive health care
