

NATIONAL PARTNERSHIP FOR WOMEN & FAMILIES AT-RISK RURAL LABOR & DELIVERY UNITS LIST

The following is a list of at-risk rural hospitals with labor and delivery units identified based on analysis by the Cecil G. Sheps Center for Health Services Research at the University of North Carolina. The Sheps Center used two financial criteria: (1) the hospital is in the top 10% Medicaid payer mix of rural hospitals across the country, (2) the hospital has experienced three consecutive years of negative total margin. The Sheps Center evaluated hospitals based on Financial Distress Index data, but individualized data on that measure was not provided.
